VINAY PRAJAPATI

VOLUNTEERING

College Tech Activities

Technical Cell

2024 – Present

- Assisted in student coding activities and technical workshops.
- Prepared and monitored computing equipment and network labs.
- Coordinated with peers during college coding events.

Hackathon Participant

Odoo College Hackathon

2024

- Collaborated in building rapid software prototypes.
- Sharpened problem-solving and teamwork capabilities.

EDUCATION

Bachelor of Technology

Computer Science Engineering

3rd Year • 2022 – 2026 • Gujarat, India

LANGUAGES

English	Professional •••••
Hindi	Native •••••
Gujarati	Native •••••

SKILLS

C • C++ • Core Java • Python • HTML5/CSS3 • JavaScript • Bootstrap 5 • SQL/MySQL • DBMS • Git/GitHub • Cisco Packet Tracer • Linux Basics

INTERESTS

Cyber Security & Networks

Keen to explore threat defense, network security architecture, and vulnerabilities.

Software & Systems

Passionate about building scalable applications and practical database tools.

SUMMARY

Passionate Computer Science Engineering student with a solid grounding in programming languages, data structures, and database management systems. Completed a comprehensive 60-hour Cyber Security Upskilling course certified by My Job Grow (Eduquirk Innovations). Demonstrated ability to learn rapidly, collaborate in academic projects like Hospital Management System and AssetFlow, and adapt to emerging technologies. Aiming to apply technical rigor and problem-solving skills in a dynamic IT and engineering environment.

EXPERIENCE

Cyber Security Trainee

07/2025

My Job Grow (Eduquirk Innovations Pvt. Ltd.)

Virtual Training

- Completed intensive 60 hours of structured hands-on training in Cyber Security fundamentals, security controls, and defensive practices.
- Studied cyber threat analysis, network protection principles, and organizational security compliance.
- Awarded ISO 9001:2015 and MSME recognized Course Completion Certificate.

Hospital Management System

Academic Project

Project Developer

College Lab

- Engineered an organized healthcare management application to streamline patient records, appointments, and staff workflow.
- Designed relational database schemas to ensure data integrity and reliable search functionality.

AssetFlow

Academic Project

Software Developer

College Lab

- Developed an institutional asset tracking tool for managing inventory, equipment logs, and resource allocation.
- Focused on clean, intuitive data entry and systematic reporting for organizational equipment audits.
